

NEW LOGISTIC STANDARDS

- 
- GOOD PLATFORM FOR IMPORT AND EXPORT
 - GUARANTEE OF QUALITY OF SERVICES
 - SAVINGS IN MONEY AND TIME
 - SECURITY AND A PERFECT STORAGE ENVIRONMENT
 - INCREASED BUSINESS EFFICIENCY AND FLEXIBILITY

THE KEY BENEFITS OF WORKING WITH A 3PL OPERATOR:

- Optimized logistic costs (you pay only for actually used services), moving fixed to variable costs
 - European level of logistics (guaranteed storage conditions and security for your goods)
 - Savings on investments in your logistic infrastructure
 - New business opportunities for distributors through the introduction of modern logistic technologies
 - A unique opportunity for new business in Armenia without risk (customs, storage & distribution, legal support, bookkeeping & financial audit)
 - Convenience for producers (possibility to store buffer stocks and seasonal overflow)
- 

- A unique infrastructure based on a multi-functional and modern class A warehouse.
- 24 hour security and video monitoring (260 cameras), perimeter laser-control.
- The latest ventilation systems
- High quality European equipment: modern racking systems and moving equipment, dock levellers.
- Temperature controlled warehouses (9) with separate regimes
- Highly trained and qualified employees.

QUALITY MANAGEMENT SYSTEM

- 
- A high-angle, slightly blurred photograph of a warehouse interior. A worker in a blue shirt and dark pants is operating a red and black forklift. The forklift is carrying a large, rectangular pallet stacked high with cardboard boxes. The boxes are labeled with 'BIC METAL' and '30 x 5'. The worker is positioned to the left of the pallet, and the forklift's mast is visible. The background shows more stacks of boxes and the concrete floor of the warehouse.
- MEETS THE REQUIREMENTS OF GOOD DISTRIBUTION PRACTICES
 - INTERNATIONAL REQUIREMENTS FOR FOOD STORAGE, STORAGE AND DISTRIBUTION
 - BASED ON REQUIREMENTS ISO 9001:2008
